GOD of the WORD Website Access

Web address = www.GODoftheWORD.org

Once the page opens, you will see 5 subtitles under the main *GOD of the WORD* title: Welcome, About the Study, Photos, Bible Studies, and Leader's Information.

To get your lesson or watch a video:
Move your cursor over the word "Bible Studies" and click on that subtitle. That will open a new page in which you will see icons with the names of each of the Bible studies. Put your cursor over *Beginnings* (or whichever study your group is doing) and click on that icon.

The next page will list the lesson numbers. Find the lesson number for which you are looking and click on it. This will open a page that gives you access to the lesson itself (the questions), the outline for the Closing Summary, and also the video of the Closing Summary for that lesson *(if* a video was made). Once you have opened a document, you must use the back arrow at the top of your browser in order to return to the website for further information or lessons.

The website continues to be a work in progress. Eventually all of the lessons for each of the eight studies will be available this way.
